Dear Parents and Students

Applying for Student Finance

Students who have applied for a course at university or college starting in Autumn 2021 can now apply for student finance.

Students do not need a confirmed place at university/college to apply; they can create an online student finance application using their first choice of course. It is important however to start applications for finance as soon as possible in order for the application to be processed in time for September.

Applications are made at www.gov.uk/studentfinance, with more information and quick start student finance guides available at <https://studentfinance.campaign.gov.uk>

The following websites are also a useful source of additional information

- UCAS also have a section on their website regarding student finance: <https://www.ucas.com/sfe>
- The Money Saving Expert website has a whole section dedicated to student finance containing a substantial amount of resources, in particular an informative article which aims to dispel some of the myths and simplify any unclear aspects of student finance : www.moneysavingexpert.com/students
- A Student Finance Calculator, which can compare costs for up to five different universities, is available at <https://www.gov.uk/student-finance-calculator>

Yours faithfully

Diane Howorth
